**Please Note:**

CBB’s meter should not be your preferred method of shutting water off to your house. Each home should have a shutoff valve near their home. If you do not have one, we strongly recommend that you have one installed. At times it is difficult for a homeowner to turn off the water at their meter without the proper tools.

Payments can be made in a variety of ways, please check the website at [cbbwater.com](http://cbbwater.com) for all your options.

We encourage all member to sign up for “Alerts” on our website. On occasion we will send out group text messages when there is a need to notify members of problems or planned service interruptions.
